

Sinclair Broadcast Group's attempts to illegally air an hour-long partisan political ad which directly favors one candidate while slandering another should not be allowed.

Members of the FCC are obliged to follow the law and to see that broadcasters follow it as well. If your conscience is not enough to see that you do that the threat to your careers should provide the impetus.

Hopefully you will do your jobs and prevent this unlawful use of America's airwaves.

If you truly believe in democracy you must.

Thank you.
